

Mayor Mahlers Storm Update: Thursday August 6, 2020 6:00pm

We have been in constant contact with JCP&L the past 2 days regarding the restoration of power in Wanaque.

Right now there is a crew at the Haskell substation attempting to energize circuits. Some sections of town have turned on. Other sections may come on tonight. Other sections have burned out circuits which must be repaired. No definite time line was given.

A Vice President from corporate told me that 85% of statewide outages would be restored by midnight Friday and 98% would be restored by Tuesday.

We have set up a charging and cooling station at the Wanaque First Aid Squad Building. Check the Wanaque website for times.

We have also reached out to Cablevision numerous times regarding the outages to optimum internet. No response from Cablevision.

Updates to follow as we receive additional information.

Regards,
Mayor Dan Mahler
